

What is CleanSave 5?

CLEANSAVE 5 is a fast-acting glass cleaner that rapidly penetrates and removes light to medium soil loads leaving sparkling clean windows and mirrors. It has been formulated to produce the lowest possible impacts on both people and the environment, whilst facilitating highly effective and productive cleaning.

CLEANSAVE 5 is a part of the CLEANSEAVE Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals.

CleanSave Range

CLEANSAVE is a range of performance driven, concentrated chemicals that are supplied in tamper-proof packaging for dispensing automatic dilution systems. Each convenient 2.4L bottle comes fitted with a safety insert that stops cleaners from being able to access the concentrate. The products can only be diluted through dispensers which provides complete control over dilution, stopping over-dosing and product wastage and improving safety.

Key Benefits

- ✓ Highly concentrated to get more out of each bottle
- ✓ Provides control over dilution
- ✓ Virtually no product wastage or 'over dosing'
- ✓ Leaves glass and mirrors sparkling clean
- ✓ Attacks dirt fast and evaporates quickly
- ✓ Non-streaking
- ✓ Not classified as Dangerous Goods
- ✓ Colour and number coded for ease of use and safety
- ✓ Environmentally responsible, biodegradable and phosphate-free
- ✓ Reduces packaging, transport and storage requirements

Environmental Care

CLEANSAVE 5 has been made from ingredients that have been chosen to give the following properties:

- ✓ highly biodegradable
- ✓ phosphate-free
- ✓ low alkaline pH
- ✓ non-flammable
- ✓ recyclable packaging

CLEANSAVE 5 contains:

- ★ **NO** toxic, harmful or ecologically-suspect ingredients: no ammonia, glycol ethers, nonyl phenol ethoxylates, caustics, corrosives, chlorine, heavy-metal sequestering agents or phthalates.
- ★ **BIODEGRADABLE** surfactants

How Does It Work?

The surfactants in CLEANSEAVE 5 are classed as colloidal particles that work on a macromolecular level to remove soil. These particles reduce the surface tension of the solution, attack and encapsulate oil and dirt and separate these substances from the surface being cleaned. The oil and dirt can then be wiped away easily.

For Use On...

CLEANSAVE 5 is a fast-acting cleaner for glass, stainless steel and chrome surfaces. It removes oil, greasy films, lipstick, finger marks and all other soilage from windows and display cabinets without leaving any film streaks. CLEANSEAVE 5 leaves glass windows and mirrors clean and sparkling.

Technical Data

Properties

COLOUR – Transparent aqua blue liquid

ODOUR – None

PH = 8.5 ± 0.5

FOAM – High foam height

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

The ready-to-use solution of CLEANSEAVE 5 is available from your Agar Detergent Dispenser for bottle fill. Simply select the product and push the button while holding the hose in your bottle.

Spray a light mist onto the surface then polish dry with a paper towel or clean, lint-free cloth. Repeat if necessary.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
