

What is Dish-Power?

DISH-POWER is a high performance detergent for commercial dishwashing machines. In concentrated powder form, enclosed in a tub and dispensed through an automatic dilution system, it provides a safer, more compact alternative to machine dishwashing liquids.

Key Benefits:

- Compact - one 4kg container of DISH-POWER will wash the same amount of crockery and cutlery as one 20L container of Autodish dishwashing liquid
- Safer to use – Enclosed solid powder minimises contact with product and eliminates the risk of splashing caustic on skin or in eyes
- Special anti-caking formulation keeps the powder soluble

How Does It Work?

DISH-POWER is an industrial strength powder detergent that is packed in a 4kg tub with a wide lid and a mesh screen over the opening. With the lid removed, the tub is placed upside down in a special dispenser that uses hot water to dissolve a metered amount of powder into the dishwasher to maintain the correct detergent concentration at all times. Rinse Aid can still be used as normal through a standard dishwashing detergent dispenser.

For Use On...

DISH-POWER is a high-performance detergent that provides excellent cleaning of dishes, glasses and cutlery.

Technical Data

Dangerous Goods Classification

DISH-POWER is a Class 8 corrosive liquid.

U.N. No: 3262	CLASS: 8
PACK GRP: II	HAZCHEM: 2R

Properties

COLOUR – White
pH = 13 ± 0.5 (1% Solution)

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

DISH-POWER is metered and supplied automatically to the wash tank by the Electronic Detergent Control Unit. To install this bottle, first turn off the dispenser, then put on rubber gloves and unscrew the cap to reveal screen. Take bottle to the dispenser, invert and slide down into dispenser. Do not pour powder onto your hands. Switch the dispenser back on now.

Rinse Aid is used as normal.

Note: Polished or anodised coloured aluminium-ware, lead crystal and hand painted china may be affected by machine dishwashing – please follow manufacturer's directions for washing these items.

Safety

WARNING – Corrosive. May produce severe burns. Attacks skin and eyes. DO NOT SWALLOW.

First Aid

If splashed in eyes or on face, hold eyes open and flood with water for at least 15 minutes. Seek immediate medical attention. If splashed on skin, remove contaminated clothing and wash affected area for 15 minutes. If swallowed, do NOT induce vomiting. Give a glass of water if patient is conscious. Call a doctor immediately.

Pack size: 4kg

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
