

What is Kooka-Kleena?

KOOKA-KLEENA removes food and burnt on residue from cooking appliances such as ovens and barbecues.

Key Benefits

- ✓ Non-dangerous-goods.
- ✓ Does not contain any caustic material.
- ✓ Very effective on films of burnt meat and fat.
- ✓ Safer to use than caustic-based products.

How Does It Work?

KOOKA-KLEENA is a concentrated detergent which is designed for removing fat, grease, carbon and burnt on food residues from ovens, grills, hotplates and deep fryers.

For Use On...

KOOKA-KLEENA is ideal for use in all kitchens as well as on outdoor barbeque hotplates and grills.

Technical Data

Properties

COLOUR – Transparent orange liquid
ODOUR – Faint solvent
pH = 11 – 11.5

Environmental Care

KOOKA-KLEENA conforms with all statutory environmental requirements. It is based on effective ingredients selected to perform efficiently so there is no waste or damage. KOOKA-KLEENA is non-flammable and biodegradable. KOOKA-KLEENA containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

- Wear protective gloves if skin contact may occur.
- **Ovens:**
Preheat oven to 60°C then turn off. Apply neat KOOKA-KLEENA onto surfaces and leave 5 minutes to activate. Loosen carbon residues with stiff brush or scraper. Wipe up dissolved solids with damp cloth then rinse thoroughly with clean water.
- **Grills & Hotplates:**
Turn hotplate off after use and allow to cool for 5 minutes. Surface should be warm but not at full heat: Switch on exhaust fans. Scrape food residues off then apply neat KOOKA-KLEENA. Leave wet to activate for 5-10 minutes. Scrub with brush, spatula or griddle pad then drain solution off. Rinse well with potable water. Brush surface with vinegar, then cooking oil.
- **Deep Fryers:**
Cool and drain cooking oil. Partly fill fryer with warm water and add KOOKA-KLEENA at the rate of 1 cup per litre of water. Fill fryer with water to the upper oil level and bring to boil. Simmer until the surface is clean. Brush any other greasy surrounding areas with the solution. Drain solution while adding cold water at the same time to reduce the shock of the temperature change. Finally, rinse with clean water to remove all of the solution, then vinegar.
- KOOKA-KLEENA is excellent on steel, stainless steel and enamel surfaces.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
