

VS

HOW IT REALLY WORKS

Our Bio-Enzymatic **URINE DIGESTER** works around the clock. As long as there is a food source of urine, feces or any organics in the grout, sub floor, walls or other surfaces. **URINE DIGESTER WILL CONTINUE TO WORK 24/7.**

VS

Hydrogen peroxide products act quickly, but have a limited life span.
ONCE IT DRIES, IT IS NO LONGER EFFECTIVE

You only need to apply Bio-Enzymatic **URINE DIGESTER** once a day during your regular cleaning schedule. The residual biologicals will continue to work all day. One application per day reduces product and labor costs.

VS

To be effective, peroxide based products must be reapplied numerous times throughout the day to "KEEP UP" with a continuously used restroom. If the urine is allowed to penetrate into the grout, floor, walls, etc... The peroxide will not be effective at removing the deeply embedded urine.

Bio-Enzymatic **URINE DIGESTER** will penetrate deep into the grout and sub floor where a bulk of the urine is located. The bacteria will actually "SEEK OUT" the deeply embedded urine.

VS

Peroxide cleaners will not penetrate the grout or sub floor. It will only clean the surface. Most of the odor causing urine is actually below the surface.

Contains an odor counteractant and light fragrance that can last up to 24 hours. The fragrance can easily be "matched up" with other products used in a **RESTROOM PROGRAM.**

VS

Has no odor counteracting benefits once the product has dried.

The TRUTH

Nilodor's Bio-Enzymatic **URINE DIGESTER**

- Can withstand temperatures up to 180°.
- Can be combined with most neutral cleaners.
- Can work in the presence of disinfectants.*
- Carpet and Rug Institute approved.**

Nilodor's **BioBREAK™** is the industries 1st
GREEN SEAL GS-53 Certified biological product

*We recommended that you apply the digester around the urinals and commodes after the floor has been mopped with an all-purpose cleaner or quat. By doing this after mopping you have created the moist environment for the bacteria to work. This is a very simple step and requires very little training.

**Original fragrance only
