

3M™ Scotch-Brite™ Sienna High Shine For Cleaning and Conditioning floors

Description

The 3M™ Scotch-Brite™ Sienna High Shine Floor Pad is a premium quality floor maintenance pad, made of high quality synthetic fibre organized in an open textured non-woven structure. Sanding and cleaning abrasive particles are bonded with a durable adhesive on the structure. Each floor pad has a pre-cut centre hole.

Special Features and Advantages

- Can be used on both sides and in the middle.
- Can be used on various types of floors: marble, terrazzo, concrete, plastic, linoleum, wood, ceramic, epoxy...
- It can be used with water only.
- Do a light sanding of the floor by removing fine scratches. Typically used as a 1st step in a renovation, followed by Purple High Shine
- Do a thorough cleaning on non-shiny and non-fragile floors.
- Coarse fibre for better dirt and soil removal on the floor.
- Open and flexible web to collect soil for floors and to allow an easy washing after use
- Durable pad.

Where and when to use

RPM	150-400	>400
Strip		
Scrubber dryer	XX	
Cleaning under swing machine	XX	
Spray cleaning	X	
Buff (dry)		

XX Designed for X suitable

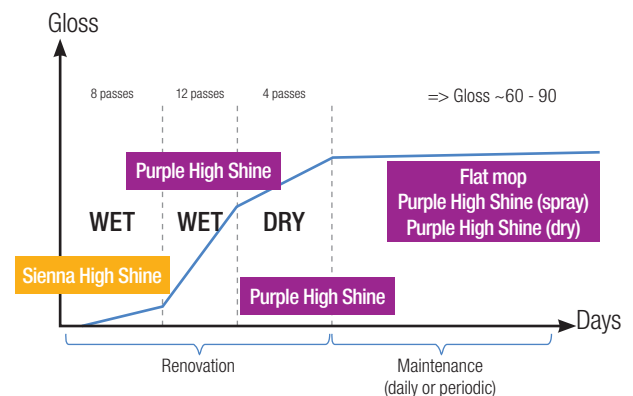

Typically, this floor pad is used to prepare the floor before using Scotch-Brite™ Purple High Shine Floor Pad, when the floor is in a poor condition.

The 3M™ Scotch-Brite™ Sienna High Shine floor pad also cleans and conditions the floor in routine wet cleaning with autoscrubbing machines, or low speed rotary floor machine in combination with any detergent cleaner or just water.

Example of use with scrubber-dryer machines on stone floors

Install under the machine pad holder.

1. Wet scrub the area for 7 days (or 7 passes in a row) if you wish to use Scotch-Brite™ Purple High Shine Floor Pad afterwards. Or use Scotch-Brite™ Sienna High Shine floor pad as a daily cleaning pad as a replacement of your current cleaning pad.
2. Remove pad and wash it after use.

Example of use with a Single Rotary floor machines on stone floors or plastic floors

1. Install under the machine pad holder.
2. Dust mop or sweep the area.
3. Wet scrub the area for 8 passes (4-6 passes are usually enough on plastic floors). Afterwards, use 3M™ Scotch-Brite™ Purple High Shine Floor Pad to raise shine if desired (see technical data sheet for this pad).
4. Pick up dirty solution with vacuum cleaner

Maintenance of pad

1. Remove pad from machine after each use
2. Scrub with a soft nylon brush under tap water or spray hose both sides or machine wash at 40°C max.
3. Hang up for drying.

Note: machine wash will damage the floor pads and reduce their durability.

Product Specifications

3M™ Scotch-Brite™Sienna High Shine Floor Pads consist in nylon fibres, synthetic resin and dedicated abrasives. They are not significantly affected by water, detergents and cleaners commonly used for floor will maintenance.
